

National Indicator 186 per capita CO₂ emissions

Energy Saving Trust support to Local Authorities

Lance Saxby

Energy Saving Trust

Local Authority Services Manager - North

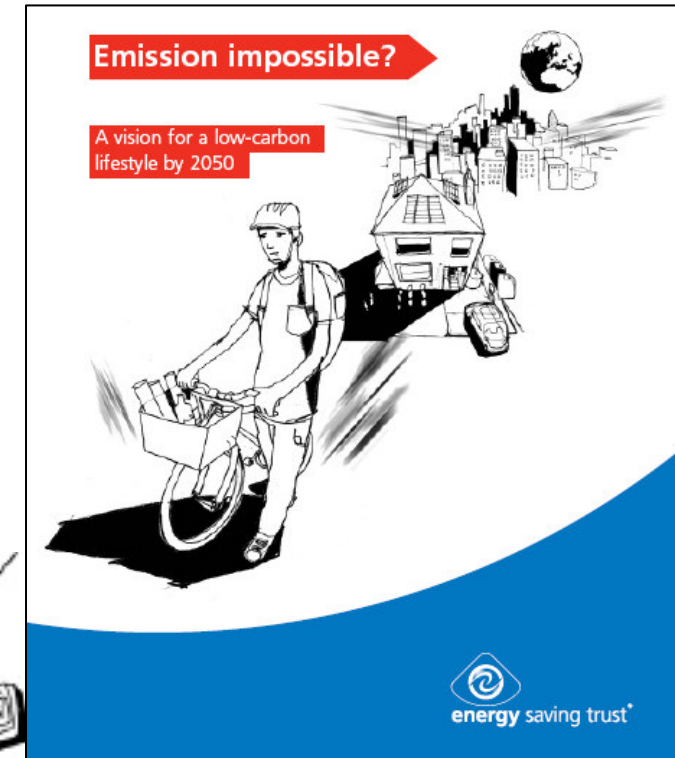

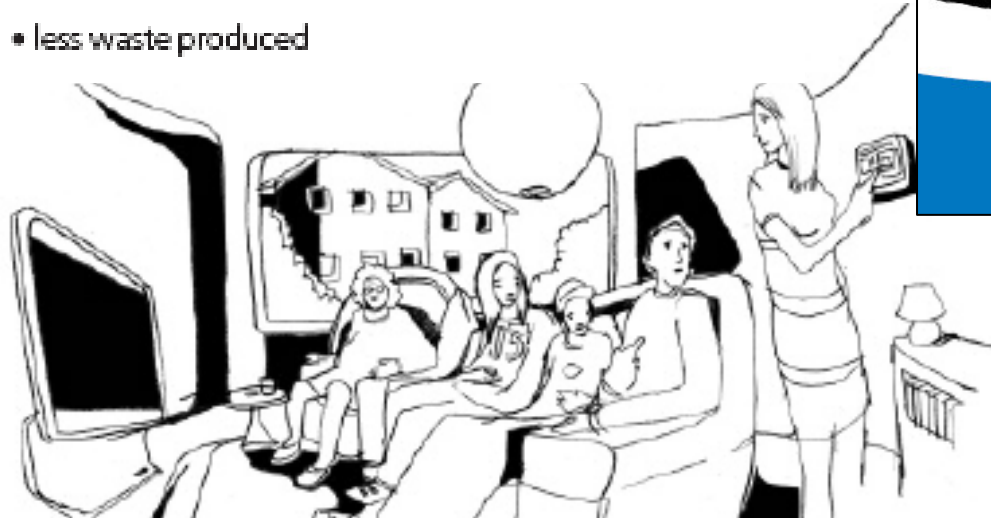

What we want to achieve

Our mission is to lead 60 million people to act on climate change

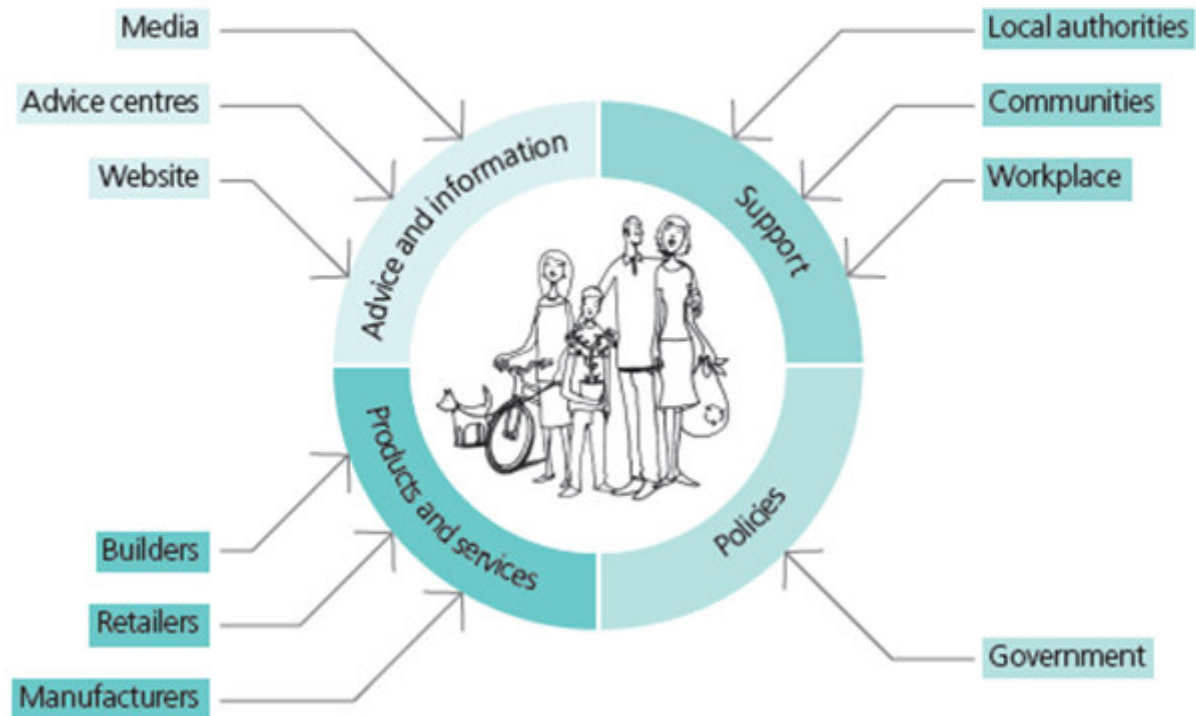

Our vision

Our vision for a low-carbon lifestyle covers seven areas where individuals can most make a difference:

- energy saving behaviour
- more energy efficient homes
- products that consume less energy
- more renewable energy and microgeneration
- sustainable low-carbon personal transport
- more efficient use of water
- less waste produced

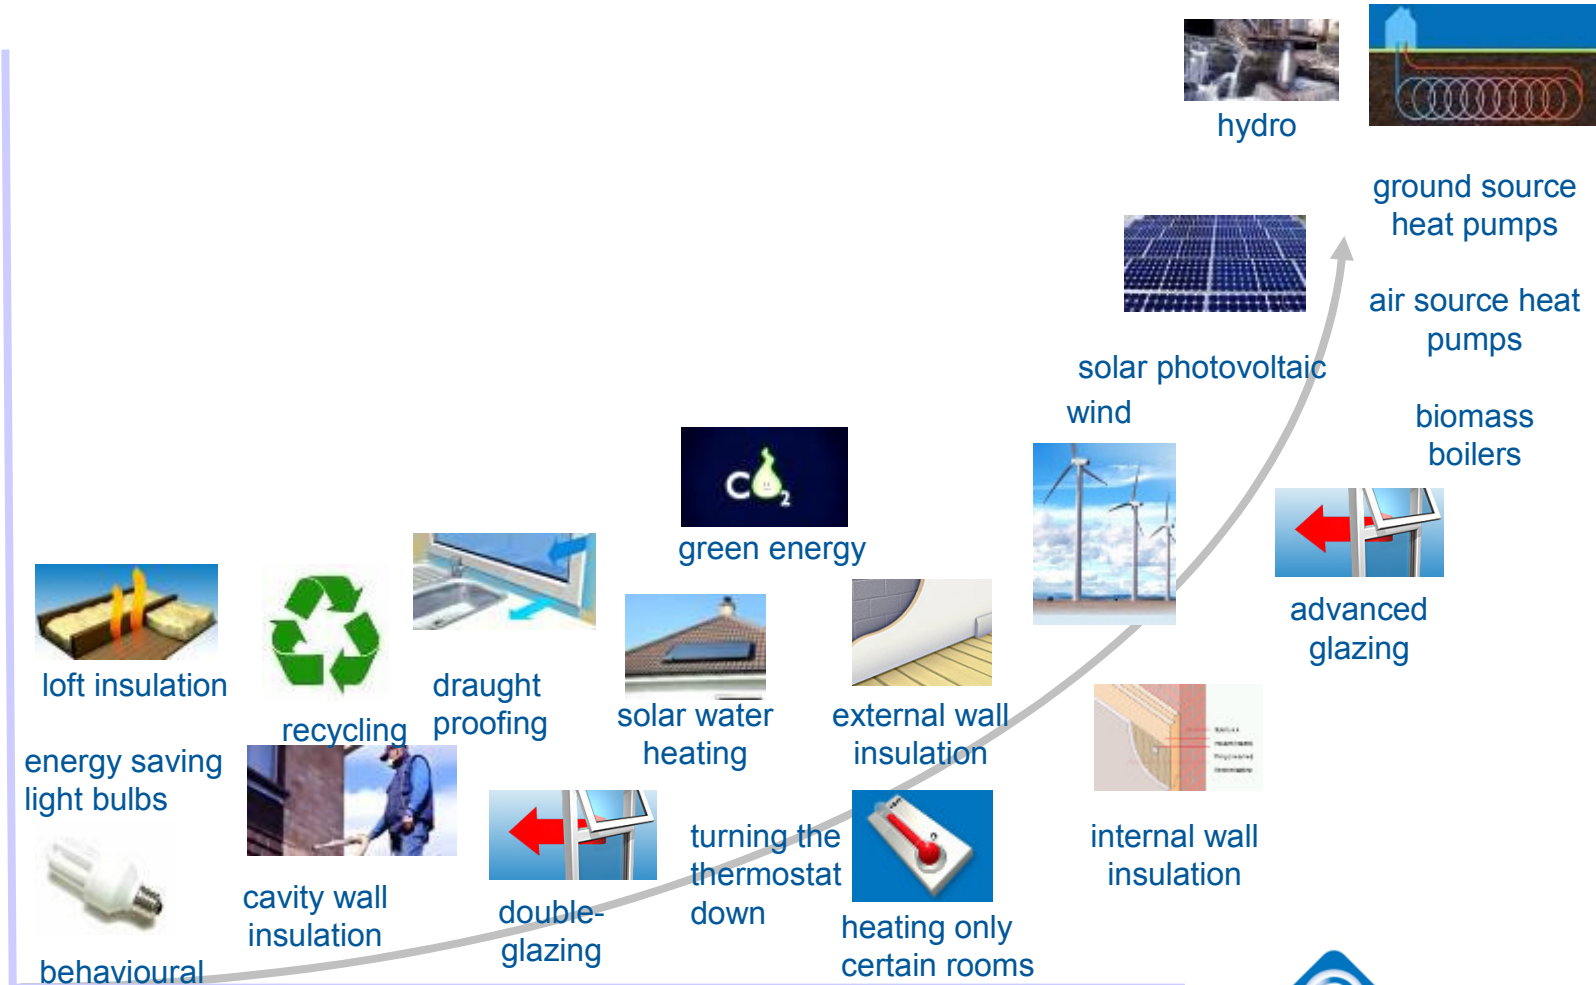

Our strategy

Awareness and understanding

CONSIDERATION

AWARENESS AND UNDERSTANDING

Energy Saving Trust support to Local Authorities

All of our activities are aimed at reducing
carbon emissions
